Experience

DELICIOUS DELIVERIES

- Built a restaurant ordering application.
- Utilized React/Redux for view rendering, Mocha/Chai for unit testing, MongoDB for database modeling, Loopback for RESTful API design, and CircleCI with Heroku for continuous deployment.

JOBLEADS

- Created a job listing aggregator application to help Origin Code Academy graduates with job searches, as well as keep track of jobs they have applied to.

SAN DIEGO CRIME WATCH

- Created an application to map crime statistics in a given area of the city.
